

June 25, 2007

Attn: Cloke-Kirby Construction Limited

Construction projects are typically high risk activities and without the cooperation of all strategic partners, the risk to workers and to the site can be increased dramatically. We are very grateful for your support and help in contributing to the safety of capital projects. In appreciation, please accept this plaque and our thanks for your support to our site.

Yours truly,

J.B. Boughs CRSP
Director of HSE
sanofi pasteur Ltd.
